It's December, and I just have one question; where has the year gone? My dad always said the older you get the faster time goes by. He was right, because the past year has flown by for me. It seems like just last week we were clearing out the old shop and wondering what the year had in store for us. Blending the two businesses together and having the employees getting to know each other has been fantastic. This year has been exciting and busy. Looking back, a lot of changes have transpired, and I'm happy with how everything has turned out so far.

Usually during the holidays we close the shop the week between Christmas and New Year's Day. This year, we will only be closed on Christmas Day and New Year's Day, and will be closing at noon on December 22nd. If you have any kid home from college for winter break that need their car checked out before they head back for spring semester, December 26th through the 29th would be the perfect time to bring their car in and get it taken care of.

Speaking of your kids in college, a AAA membership could be a great Christmas gift for them. If your family is anything like mine, having the peace of mind of knowing they'll be taken care of if they break down on their long drives to and from school is a great gift for parents as well. Davis Automotive is a certified AAA repair facility, and we value the safety of your family.

## ***MEET THE CREW***

Let us introduce you to Travis Casper. Travis came to Davis Automotive through McCain's Auto which he had been with since August 2016. Travis is one of our general technicians and a certified welder. When he is not working he enjoys spending time with friends, shooting some pool, and riding motorcycles.

---

## **WINTER SPECIAL!**

Come into McCain's for your \$49.95 Winter Special Package! -Oil Change -Tire Rotation 25 Point Inspection Including inspections of wiper blades, tires, belts, hoses, cooling system and more. Special must be presented in advance. Some limitations may apply.

## ***COLD WINTER HACKS***

I have always enjoyed finding ways to use everyday items to make n life easier, otherwise known as life hacks. With the start of the winter season, here are a few ideas to pass along to your friends and family

Raise your wipers off your windshield; when your car is going to sit outside in the cold and ice, raising your wipers will stop them from freezing onto the windshield, which will also prevent the wipers from tearing.

Using cooking spray on the rubber edges of your door will keep them from freezing shut. Spray the edges then rub them down with a pape towel.

Shaving cream will work as a defogger. Just spray a layer on the inside of your windows and windshield, then wipe it off.

If your key lock is frozen, put hand sanitizer on the key and the alcoh will melt the ice. You can also spray WD-40 in the locks to help stop the water from freezing inside the locks.

Cover your side mirrors with gallon sized Ziploc bags. This hack is easy to install and remove.

Keep a sock filled with kitty litter inside your car. This will absorb any moisture inside the car and keep the windows from fogging up.

I saved my personal favorite for last. Keep a spray bottle with 3 parts rubbing alcohol and 1 part water to spray on the windows. This will help keep the water on the windows from freezing. Some people suggest using vinegar instead of rubbing alcohol, but too much vinegar can hurt the paint if it gets on it.

## ***HOLIDAY RECIPES!***
